ADVISORY COUNCIL

Minutes of Meeting Held February 16-17, 1978
Rosenstiel School of Marine & Atmospheric Sciences
Miami, Florida

GENERAL:

The following were present for both days except as noted:

G. Keller, Ch.	J. Schubel (abs.)
D. Frankenberg, V. Ch. (16th abs.)	T. Treadwell
R. Barber	F. Webster (abs.)
R. Fisher	W. Wooster
G. Gross	
J. Martin	*****
	M. Jahrde
	T. Stetson

The meeting came to order at 0830. The Draft Agenda was adopted with the addition of one item: Acceptance of the Minutes of the November 21-22, 1977 meeting. These were accepted after incorporating an amplification on aging vessels by Miss Jahrde (see p. 2, para 5 of those Minutes.)

1. Florida Inst. of Tech.: Application for Assoc. Membership. F.I.T.'s application was approved on the basis of background material supplied. It will be presented to the membership at the Annual Meeting for ratification.

2. Marine Personnel Clearinghouse. A proposal by Mr. F. Newhouse to organize a service for UNOLS was circulated to the RVOC Steering Committee. Comments received were largely negative, and were available to the council which felt there was not enough interest in pursuing it among the operators. The E/S will so inform Mr. Newhouse.

3. Annual Meeting Program. The meeting is scheduled to be held in the New Executive Office Building, Wash. D. C. as before on 18,19 May 1978. Discussion as to outside speakers narrowed down to Dr. F. Press and Congressman J. Breaux. Dr. Wooster will invite them both.

Other Items : It was suggested the projected ship schedules be poster size and placed about the hall. A report on the OFS sponsored oceanographic equipment study would be of interest (by R. Mesecar?). Announcements of the Second Working Conference on Oceanographic Data Systems (Sept.26-28 at Woods Hole) should be made, as well as a report on the Jan. 1978 OPC-UNOLS Workshop on Marine science in a changing environment.

4. Committee Membership. A nominating committee was appointed: Dr. G. Gross, Ch., with Dr. Maxwell and Capt. Treadwell. Written suggestions, as they arrive, will be circulated to all three by the office.

5. Ship Forecast Meetings. While the DNOG's were at the OPC-UNOLS Workshop, a forecast meeting was held. Mr. E. Tierney from the FGGE office summarized their requirements. It appeared the group met too early to be fully productive since some operators had not held their local sessions

On February 10, 1978, an East/Gulf Coast meeting was held at Baltimore. The West Coast session is set for March 31, 1978 at the University of Washington. Reports on all three will be available from the UNOLS office.

Dr. Gross pointed out there should be encouraged participation at any of these meetings by operators regardless of coast.

6. OPC-UNOLS Workshop. Dr. Wooster noted Dr. D. Ross was putting together a draft of results and this should be ready early in March. He also intends, with R. Stockman, to submit a proposal to NSF (L. King) to seek funds to develop a history of foreign clearance for the years 1972-1978.

A letter was composed to be sent to members conducting foreign operations asking for a quick response in transmitting foreign clearance history to UNOLS office. Establishing an information center for the benefit of members will be undertaken slowly by UNOLS staff. Data is being received from the Department of State already.

The suggestion that UNOLS develop an annual project directory is on the "back burner" at present.

The Council notes PIPICO has established a sub-committee to be concerned with facilitation of operations in foreign coastal waters. It is designated FROG for Federal R/V Operators Group, Mr. Wm. Erb, Chairman.

A letter from Mr. Wm. Sullivan (DOS) to Dr. Wooster requesting suggestions for the future role of the IOC was discussed and the council was of the opinion that UNOLS was not in a position to offer guidance at the present time.

7. Annual Report & A/C Recommendations. The remainder of the meeting was devoted to discussion of the draft recommendation regarding upgrading/maintaining the fleet over the next decade. Using \$3m/gr. and other figures several scenarios were developed depicting the effect on fleet tonnage.

Dr.'s Gross and Wooster will meet in Washington D. C. March 21 to put together a new version.

8. Customs. T. Stetson mentioned the documentation he'd done on customs problems relating to one cruise (KNORR 73). Although time-consuming for the operator, it appears to the council to be fruitless to try to obtain relief from this paperwork.

9. Launching & Meetings:

6 March	NEW HORIZON launched
30-31 March	ALVIN Rev. Comm. Mtg. at NSF
31 March	Ship Forecast Mtg. U. of Wash.
27-28 April	ALPHA HELIX Rev. Comm. Mtg. at NSF
18 May	Advisory Council Mtg. Wash. D. C.
18-19 May	Annual Meeting, Washington, D. C.
24-25 August	Advisory Council Mtg. Stony Brook
26-28 August	Second Working Conference on Oceanographic Data Systems, at Woods Hole Oceanographic Institution.
