## ROV Drill

### Estimated cost breakdown for drill use on a cruise:

- 1) \$4,000 for shipping/logistics - drill system and spares from WHOI to staging port and return
- 2) \$13,000 Drill Technician salary for approximately two weeks of at sea time (fully loaded)
- 3) \$3,500 expendables (bits, explosive charge for cutter, misc. supplies)
- 4) \$700 insurance - for the ~\$250,000 capital replacement value of the drill system
- 5) \$1,200 Drill Technician travel – roundtrip travel to and from the ship

**TOTAL per cruise estimated cost \$22,400**
