

UNOLS Fleet Safety Statistics Report

Year: 2024 Quarter: 2 No of Ships Reporting: 14/17

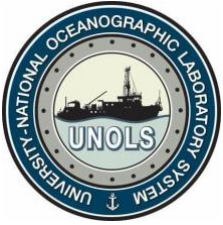

Incidents (at Sea and In Port)	
Violence and Other Injuries by Persons or Animals	3
Transportation Incidents	0
Fires / Explosions	0
Falls / Slips/ Trips	4
Exposure to Harmful Substances or Environments	0
Contact with Object / Equipment	6
Overexertion / Bodily Reactions	0
Illness (Including Heart Conditions, Diseases, etc.)	28
Total Number of Incidents	41
Total Crew Days Reported (At Sea and In Port)	12450
Number of Accidents Resulting in Lost Time for Crew Members	5
Total Crew Days Lost	70

UNOLS Fleet Safety Statistics Report

Year: 2024 Quarter: 2 No of Ships Reporting: 14/17

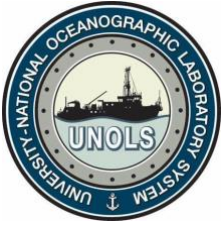

Incident Details	Warnings / Lessons Learned
<p>Mariner complained of ear infection, their anti-biotics were not working. Captain contacted Maritime Medical with George Washington instructing him to prescribe 10 mg of Sudafed PE, 4 tablets, one every 6 hours. By the next day the scientist was feeling better, was able to continue participating in the cruise.</p>	<p>Make sure medical release forms are filled out by science party and turned in to the Captain prior to cruise departure.</p>
<p>Mariner hit left side ribs against corner of high backed couch in the conference room when the ship lurched from a moderate sea.</p>	
<p>Infection due to centipede bite. Patient was bitten shoreside then the wound got infected while at sea. Given antibiotics which worked well.</p>	<p>GWMMA can be very helpful in prescribing proper antibiotics for infections</p>
<p>Mariner bruised knee while tending gear on aft deck when ship unexpectedly pitched.</p>	
<p>Mariner experienced stomach pain at sea - GWMMA was consulted. Visited their shoreside medical provider upon return for resolution.</p>	
<p>Object in eye</p>	
<p>Two cases of Diarrhea</p>	
<p>Eleven cases of COVID. Two required quarantine, the others had light or no symptoms. Masked and maintained social distance for five days after positive test.</p>	

UNOLS Fleet Safety Statistics Report

Year: 2024 Quarter: 2 No of Ships Reporting: 14/17

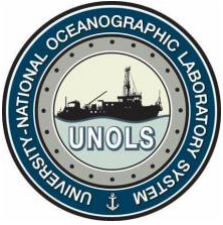

<p>Mariner was rushing while going up a ladder. Their foot slipped off the stair tread and they hit their shin causing bruising, slight pain and skin abrasion.</p>	
<p>Mariner was lifting a box of soda syrup and strained right shoulder area.</p>	
<p>Three cases of sea sickness requiring administration of sea sickness medicine and needing to make an unscheduled port call to discharge one crew member</p>	
<p>One case of possible kidney stones that resulted in discharging the crew member during a scheduled port call.</p>	
<p>2 cases of GI issues requiring medical attention following port calls in India.</p>	
<p>Mariner was stuck by stingray barb when dumping codend.</p>	
<p>Mariner was stuck by shrimp spine when sorting catch.</p>	
<p>Mariner strained shoulder when handling lines on cruise departure.</p>	

UNOLS Fleet Safety Statistics Report

Year: 2024 Quarter: 2 No of Ships Reporting: 14/17

<p>Shore support person tripped out on dock while moving large ship shore power cable into position for the vessels return to port, tripped over shore power cable. The fall caused the person to land hard on their knees, elbows and side. No medical treatment was needed, just some ice and easy work the next few days.</p>	<p>Be careful when moving heavy shore power cable/equipment, maybe have 2 people to make job easier.</p>
<p>While fabricating a part, mariner got a metal sliver in eye while wearing goggles, due to rubbing forehead when removing the goggles.</p>	<p>Be aware that PPE can reduce injury, but not eliminate the risk.</p>
<p>Person got a wire fiber shard in wrist while wire winding from cable end strands</p>	<p>Make sure people wear gloves while handling during wire winding</p>
<p>Three cases of sea sickness</p>	
<p>Three cases of possible kidney stones</p>	
<p>Mariner sent ashore to clinic due to feeling flu like symptoms. Negative COVID test. Return to vessel with cold medicine.</p>	
<p>Crew member went ashore to skateboard and injured Achilles tendon</p>	<p>Captains should think twice when allowing crew ashore for liberty during very short port (4-6 HOURS). Vessel sailed one AB short due to an injury suffered while skateboarding ashore.</p>
<p>Mariner lost crown on tooth and was sent ashore for a temporary crown.</p>
