

INMARTECH '98

Pre-meeting Survey

The technical agenda for INMARTECH '98 is currently under development. The meeting will be conducted in English. The participant appraisal forms from the 1996 INMARTECH workshop have been carefully considered while planning the 1998 meeting. Below is a list of some of the topics currently under consideration for this year's meeting. The workshop sessions will be arranged to encourage informal discussion among participants. Please indicate your interest by completing and submitting the following survey form.

This form should be completed by individuals with an interest in attending INMARTECH '98 and submitted at your earliest convenience.

**THIS FORM IS NO LONGER ACTIVE AND
DOES NOT PERTAIN TO INMARTECH 2000.**

Workshop Sessions

Workshop Topic and Subtopics	Would DEFINITELY Attend Session	Would POSSIBLY Attend Session	Would NOT Attend Session
------------------------------	---	---	--

1. Bottom Sampling Techniques

Definitely Possibly Not

- Piston Coring,
- Dredging,
- Multi-Core,
- Box Core,
- Suggestions for other sub-topics:

2. Laboratory Chemical Analysis

Definitely Possibly Not

- Dissolved Oxygen Titration,
- Precision Salinometers,
- Nutrient Analysis,
- Suggestions for other sub-topics:

3. Geophysical Technologies

Definitely Possibly Not

- Multibeam Bathymetry,
- Streamers/Hydrophones,
- Chirp Sonar Systems,
- Seismic Sound Sources,
- Suggestions for other sub-topics:

4. CTD Packages

Definitely Possibly Not

- C, T, and D Sensors,
- Other Sensors, e.g. PAR, Fluorometer, transmissometer,
- Deep deployment of CTDs,
- Suggestions for other sub-topics:

5. Deck Operations and Onboard Safety

Definitely Possibly Not

- Overboard Equipment Handling,
- ISM Code,
- Suggestions for other sub-topics:

6. Wire/Rope/Cable

Definitely Possibly Not

- Terminations,
- Fiber Optics,
- Suggestions for other sub-topics:

7. Fishery Technologies

Definitely Possibly Not

- MOCNESS,
- Optical Particle Counters,
- Suggestions for other sub-topics:

8. ROV and Towed Vehicles

Definitely Possibly Not

9. Scientific Diving from Research Vessels

Definitely Possibly Not

10. Technician Support from Small Vessels (under 60 ft)

Definitely Possibly Not

11. Planning & Logistics for multi-cruise expeditions away from homeport

Definitely Possibly Not

12. Multibeam Data Processing

Definitely Possibly Not

13. Underway Sampling Systems

Definitely Possibly Not

14. Other suggestions for workshop topics:

15. Would you be interested in presenting under one of the above topics?

Yes
No

If Yes, which?

16. Would you be interested in presenting a poster?

Yes
No

If so, on what?

Optional Information

17. Name:

18. Organization:

19. Title

20. Professional Position/
Primary Work Function

21. What would you like to gain by attending INMARTECH '98?

22. Additional comments:

**THIS FORM IS NOT AVAILABLE TO SUBMIT
AFTER OCTOBER 1998.**

If you have comments or questions regarding registration for INMARTECH '98, please contact Annette DeSilva at the UNOLS Office:
