Report from the UNOLS Arctic Icebreaker Coordinating Committee to the UNOLS Annual Meeting - September 1999

The UNOLS Arctic Icebreaker Coordinating Committee (AICC) provides scientific oversight of Arctic marine science support on US vessels, with primary focus on USCGC Polar Star, USCGC Polar Sea, and the new USCGC HEALY. In the past year the AICC held meetings 18-20 November 1998 at NSF headquarters in Arlington, VA, and 24-25 March 1999 in New Orleans. Interim business has been handled via a lively email correspondence, and AICC representatives have attended other meetings related to AICC business.
